

Compliant Web Standards and the Benefits of Accessibility

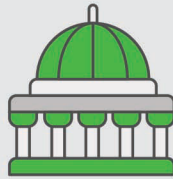

The enterprise web and mobile apps of today need to be accessible in order for your business to reach its full market potential and to meet certain legal requirements under Section 508, ADA and WCAG 2.0.

By embracing accessibility, you can win the loyalty and trust of web users with disabilities and further enhance your offering, while avoiding costly lawsuits that many are facing today by not being compliant with accessibility guidelines.

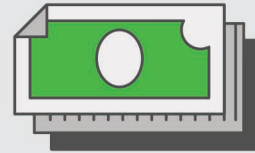

AN ACCESSIBILITY STRATEGY IS CRUCIAL FOR:
